

# Evergreen

Eamon

'Twas after midnight  
One drink by the fireside  
How so quickly all the years pass by  
Grandma's cookin'  
Takes me back to Brooklyn  
And Christmas Eves with family by my side

Whatever I go through  
One thing that's always true ooh

Time goes by and  
Everything around us changes  
But I know the love will stay  
Evergreen  
Go through life and  
Now and then we feel like strangers  
But I know the love will stay  
Evergreen, oh evergreen

Got me grateful  
New faces at the table  
And reminisce about the ones who've gone  
When we're leaving  
Coats on, bittersweet, and  
Promise you won't stay away for long

Whatever I go through  
One thing that's always true, it's always true

Time goes by and  
Everything around us changes  
But I know the love will stay  
Evergreen  
Go through life and  
Now and then we feel like strangers  
But I know the love will stay  
Oh evergreen, oh evergreen

It's evergreen, this love goes on yeah  
Through the years, the joys and tears, and we're still here whoa oh  
Can't help but wonder why it's been so long since  
I've been by your side and I've seen your smile  
Makes me wanna sing out  
No matter if it's spring through fall  
Never be afraid to call  
So until that day our love will stay  
Oh evergreen
