

# Hands Make You Dance

Eamon

Every time that he starts to speak the people flock around (flock around)  
And every time that he plants his feet the sheeple stand their ground (stand  
their ground)

He shouts louder, gets prouder, gains more power by the day  
The soul stick up, more slicker, get rich quicker while you pay

So I been looking out these eyes more clearly  
Looking into things more in depth  
I been praying so the blind can hear me  
'Cause everybody destined for death

Something making everybody go follow your mans  
Something making everybody get close next to him  
Something making everybody go follow your mans  
So someone gotta call on poppa stomp out all his plans

But the hands still make you dance  
But the hands still make you dance  
But the hands still make you dance  
But the hands still make you dance

Cripple mind, body, spirit, creep in when your armor's down (your armors dow  
n)

Persecute all that disagree & block the common grounds (the common grounds)  
The worlds captain, red dragon, the good heart acting comforter  
The peace splitter, mind tripper, the truth stripping governor

So I been looking out these eyes more clearly  
Looking into things more in depth  
I been praying so the blind can hear me  
'Cause everybody destined for death

Something making everybody go follow your mans  
Something making everybody get close next to him  
Something making everybody go follow your mans  
So someone gotta call on poppa stomp out all his plans

But the hands still make you dance  
But the hands still make you dance  
But the hands still make you dance  
But the hands still make you dance

Keep moving & keep doing everything that he tell you to  
So keep losing and keep proving its his world you just walking through

Keep moving & keep doing everything that he tell you to  
So keep losing and keep proving its his world you just walking through

Post hook- but the hands still make you dance  
Post hook- but the hands still make you dance  
Post hook- but the hands still make you dance  
Post hook- but the hands still make you dance
