

Help Me

Eamon

I've made mistakes, stumbled around
I've ruined lives, keep falling down
There's a man outside, he wants dead
There's a voice that screams, inside my head

I go down roads that come back to bite me
I see things at times that's awfully frightening
I lose the fight, I'm sinking deeper
I lose my mind

I'm begging you to help me (whoa), I'm begging you to help me (whoa)
It's like I'm comfortable up in the dark
Help me, move me, lighten up my heart
I'm begging you to help me (whoa), I'm begging you to help

On hands and knees I crawl around
I fight dogs for dinner, I'm beaten down
There's a stone cold chill inside my bones
But there's a fire by night that calls me home

I go down roads that come back to bite me
I see things at times that's awfully frightening
I lose the fight, I'm sinking deeper
I lose my mind

I'm begging you to help me (whoa), I'm begging you to help me (whoa)
It's like I'm comfortable up in the dark
Help me, move me, lighten up my heart
I'm begging you to help me (whoa), I'm begging you to help
