

Light Me On Fire

Eamon

All I ever get is rain
What's the point of looking to the sky
When all you ever get is pain
It's enough to make you wonder why, wonder why

Crawling, praying, must be something more now

Light me on fire, burn through my bones (on and on and on)
Pierce through my heart, cut through my soul (on and on and on)
Raise me from the dead
And pull me from the depths again
Light me on fire take me on
Home, home, home woo!

I been howlin' at the moon
Seems like the darkness breeds inside, my my
I been runnin' from the truth baby
See the death of me runs in these lies, in these lies

Crawling, praying, must be something more now

Light me on fire, burn through my bones (on and on and on)
Pierce through my heart, cut through my soul (on and on and on)
Raise me from the dead
And pull me from the depths again
Light me on fire take me on
Home, home, home woo!

I'm right on the edge
All I need
Is just one spark to
Turn it all to flames
Purify the pain
Need somebody, please somebody
Light me light me ahh!

Light me on fire, burn through my bones ahh! (on and on and on)
Pierce through my heart, cut through my soul (on and on and on)
Go head and raise me from the dead
And pull me from the depths again
Light me on fire take me on
Home, home!
