

Long Road Ahead

Eamon

Been some months that feel like years now
Like the whole world bout to end
Everybody live in fear now
And the hope sure running thin

It's a long road up ahead
Ain't gon' make it on my own
I'ma need you by my side
Ain't no way I go alone

Been a while since it made sense
It's made it hard to see
Looks like there ain't no end in sight now
So what's it gonna be

It's a long road up ahead
Ain't gon' make it on my own (no)
I'ma need you by my side (forevermore)
Ain't no way I go alone (I can't do it)

It's a long road up ahead (oh)
Ain't gon' make it on my own (I'm a need all of you)
I'ma need you by my side (nowhere but right here right now)
Ain't no way I go alone (no)
