Eamon

Uh, uh, uh, uh, uh

It's like that, its like that, like that, like that, like that,
like that

Had the earth and the sweat and the sticks and the brews adn kn
ew she was feelin me to
Passed the bone, gave the eye, and I knew for sure what she wan
ted to do

Can't stop thinkin about my baby girl
And how she done love me so long
Next thing that I think as I'm so correct
But the poison let me go
Found doin
I was with her friend
Knew I was gonna pay, we were sexin like everyday
She found out, she was like no doubt
Do what you gotta do, I fucked your friend this afternoon,
Whoa, my babys lost

Came outta that got my shit off track, had the bitch trapped no
w shes caught like that, my
Babys lost, ain't no comin back shes gone just like that, like
that, its like that, like that,
Like that, just like like that, like that

As the days went by had the evil chills and went about my devil
ish ways
Called her up, picked her up, all we did was fuck, now were bot
h was in a daze
Bein blazed all the time, never ever helped, my mind was always
up in the sky
If I could I would, I'd take it back cause it hurts so much ins
ide

Found doin
I was with her friend
Knew I was gonna pay, we were sexin like everyday
She found out, she was like no doubt
Do what you gotta do, I fucked your friend this afternoon,
Whoa, my babys lost
