

My Time

Eamon

Trust me, I got plenty problems
(Uh)
Arguin' ain't gon' solve 'em
Matter fact, you need to vanish
'Cause you got me feelin' panicked
And I just gotta live life simple
Learn from all the shit I been through
(Uh)
You wanna hold me back
I'm stayin' on my track
You wanna see me crack
But I was born to rise

It's my time (My time)
To shine (To shine)
And I've climbed
From the bottom to the top
And I've seen (And I've seen)
Big dreams (Big dreams)
Crash down
From the negativity
That you bring; you know that I'm right
Never understood why you hate my life
And it's sad
But I know (Uh)

I never trusted you one minute
Tellin' people that I'm finished
Number one in twenty countries
But to you I'm still nobody
When I'm around you life gets harder
But when you're sleepin' E gets smarter
(Uh, yeah)
I thought you had my back
You'll never see me crack
I'm stayin' on my track
'Cause I was born to rise

It's my time (My time)
To shine (To shine)
And I've climbed
From the bottom to the top
And I've seen (And I've seen)
Big dreams (Big dreams)
Crash down
From the negativity
That you bring; you know that I'm right
Never understood why you hate my life
And it's sad
But I know
It's my time to blow

Every time I hear somebody doubt me, I just laugh about it
Keeps me hungry, focused on the cash
Trust me, don't fuck with me or catch you disrespecting me
There's friends of mine do whatever I ask
See, your ass is just a joke

Front but love me on the low
Stop the swinging from my dick
Bitch, get off my shit

It's my time
To shine
And I've climbed
From the bottom to the top
And I've seen
Big dreams
Crash down
From the negativity
That you bring; you know that I'm right
Never understood why you hate my life
And it's sad
But I know
It's my time to blow

It's my time (My time)
To shine (To shine)
And I've climbed (Oh!)
From the bottom to the top
And I've seen (And I've seen)
Big dreams (Big dreams)
Crash down
From the negativity
That you bring; you know that I'm right (That you bring; you know that)
Never understood why you hate my life (Never understood why you hate my life
)
And it's sad (So sad)
But I know
It's my time to blow
Uh, yeah
It's my time to blow
It's my time to blow

Yeah
E flow

Eamon [?], baby
Uh-huh
Yeah
It's my time
