

Never Sleep

Eamon

The sweetest fruit can be forbidden
So be careful what you taste
The insidious stay hidden
In this jungle full of snakes

Right or wrong, I'm gon' take what's mine now
Same ol' song, it's a cold cold world
Weak or strong, there's no hiding now

In the jungle
Where the stakes are high
In the jungle
The struggle to survive
In the jungle
Never close your eyes
In the jungle
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep

I ain't thinking bout tomorrow
I'm just tryna eat today
Ain't no time to waste on sorrow
When you're hunting down your prey

Right or wrong, I'm gon' take what's mine now
Same ol' song, it's a cold cold world
Weak or strong, there's no hiding now

In the jungle
Where the stakes are high
In the jungle
The struggle to survive
In the jungle
Never close your eyes
In the jungle
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep

Weak or strong, there's no hiding now

In the jungle
Where the stakes are high
In the jungle
The struggle to survive
In the jungle
Never close your eyes
In the jungle
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
Never sleep, never sleep, never sleep
