

Won't Stop Now

Eamon

The counterfeits, all them magic tricks
Is all you've ever known (all you've ever known)
The okie doke, the mirrored smoke
Is all that you've been shown (all that you've been shown)

We've all been had
I been where you at

When life gets cruel
Just know I got you
And it won't stop now
When you've been fooled
I'm here with the Truth
And it won't stop now

The make believe, the devil's fantasy
Is all that you've been sold (all that you've been sold)
The double cross and all the pain it cost
Has left you in the cold (left you in the cold)

We've all been had
I been where you at

When life gets cruel
Just know I got you
And it won't stop now
When you've been fooled
I'm here with the Truth
And it won't stop now

Waiting, waiting on the day
That it'll all make sense
And it feels like nothing's gonna change
But nothing ever really stays the same oh

When life gets cruel
Just know I got you
And it won't stop now
When you've been fooled
I'm here with the Truth
And it won't stop now
And it won't stop now
