

# I Wanna Be Loved Back

Earl Thomas Conley

I wanna be loved back  
Wanna be loved back  
Wanna be loved back

Take another shot of gold tequila  
Lie to me and say your love is real  
Then roll me down that long hard road to freedom  
Oh but freedom ain't the word for what I feel

Girl, you don't have to hurt me to remind me  
That this living on the edge ain't where's it's at  
I just wanna put the worst behind me  
I just wanna love and be loved back

I wanna be loved back  
I wanna be loved back  
When the nighttime falls the bright lights draw  
Two hearts together  
I wanna be loved back  
I wanna be loved back  
Will you still be mine every time  
I wanna be loved back

So talk to me and tell me what you're thinking  
Tell me should I go or should I stay  
Staring out across that blue horizon  
Oh we're just too close to feel that far away

I wanna be loved back  
Just wanna be loved back  
I want a heart that cares, a love to share  
A lifetime together  
I wanna be loved back  
I wanna be loved back  
Will you still be mine every time  
I wanna be loved back

Will you still be mine every time  
I wanna be loved back
