Everybody's out to get me See it in their eyes Hardly see the way they look at me When I go cruisin' by

Cadillac, cadillac
I'm a coupe de ville built for thrill
Cadillac

I got chrome everywhere I need it
Rolled and pleated front to back
If you don't think I got it made
You ought to see me dressed in black

Cadillac, cadillac
I'm a coupe de ville built for thrill
Cadillac

Now, if you've got a woman There's one thing for sure If you want to keep her You best keep her from my door

Cadillac, cadillac
I'm a coupe de ville built for thrill
Cadillac

Cadillac

Oh, cadillac
