

Lucy Dee

Steve Earle

I've been sittin' here talkin' at you all night long
Honey, you still come on cool
Well, you could have walked away
Instead you're leading me on
Lucy, who're you tryin' to fool?

Yeah, Lucy Dee
You ain't got to run that line on me
It's plain to see
That you ain't all that you're made out to be
Well, you can tell all your friends
That you've finally met your equal, Lucy Dee

Well, you've known all along just what I'm talkin' about
You knew someday there'd come a man
Who wouldn't keep on givin' 'til he finally gave out
Lucy, honey, here I stand

Well, you tell me you know every thrill that there is to know
But nothin' in this life comes free - nothin'
You tell me you've been every way that there is to go
Lucy, you ain't been with me
