

# Face Down In The Right Town

Earlimart

So you did what you thought was right  
Oh giving up the fight  
The only way that we knew was wrong  
Got me hanging on and on  
It's everything you want  
Everything you need

And the people who counted on  
Let you down one by one  
So be sure what you're asking for  
Telephone don't ring no more  
It's everything you want  
Everything you need

Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow  
We'll get back home

Don't care who walks through the door  
The life I paid twice for  
Rearranging the furniture  
It reminds me of who you were  
It's everything you want  
Everything you need

Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow

Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow  
We'll get back home

We'll get back home  
We'll get back home  
We'll get back home
