

## The Hidden Track

Earlimart

When I came back to town  
Didn't wanna hear that sound  
But there was nothing I could do  
I wanna drive by your house  
Just to see if you're around  
And I'll be waiting there for you

You oughta know by now  
I'm willing to teach you how  
Want me to keep it down  
You oughta know by now

Turned down the radio  
And the voice that we don't know  
And you'll be smilin' then  
And then you tried to play your part  
On the day that broke your heart  
Will I see you again?

You oughta know by now  
I'm willing to teach you how  
Want me to keep it down  
You oughta know by now

You oughta know by now  
I'm willing to teach you how  
Want me to keep it down  
You oughta know by now
