

Hair trigger

Earth Crisis

Can feel it sleeping deep inside my brain on a hairtrigger setu
p. To trip off my
nerves are pulled taught as a wire. Not one reason for the disr
espect cast down.
As I climb up and out. Content to believe the lies. So eager to
spread them on
without a care.
Don't know what I've survived. Don't care about the ones I've s
aved. Can't deny
me my due credit. Can't make me the hate object. Can't stop me.
Won't throw myself awa on a fool. Declared my laws. I live by r
ules. Time will
show their antics never mattered when the walls they built up a
re left
shattered.
