

# All In the Way

Earth, Wind & Fire

It's all in the way that you call out my name  
In the night just to say that you love me baby  
It's all in the way that you touch and embrace me  
It makes me go crazy, I'm in love

I'm here for you  
You are here for me  
Simple as it seems  
Because of our love

But listen babe, the truth  
The good in me is you  
And if you need some proof  
Just look into my eyes and I tell you one more time

It's all in the way that you call out my name  
In the night just to say that you love me baby  
It's all in the way that you touch and embrace me  
It makes me go crazy, I'm in love

Let me break it down clearly babe  
For if some reason can't feel me  
Let me tune you in  
To my way

'Cause if you understand  
What you do to me  
You'll never have a reason to leave  
Baby, don't cha' know

It's you me, all about we love  
It's all in the way you me  
All about we love

My thoughts are replaced by your lovely face  
And the smile that you bring, I just can't erase  
The warmth of your love is like amazing grace  
How sweet it is in your way

My thoughts are replaced by your lovely face  
And the smile that you bring, I just can't erase  
The warmth of your love is like amazing grace  
How sweet it is

You got my loving in the way  
My heart and soul in the way  
My loving falls in the way  
Look into my eyes and I tell you one more time

It's all in the way that you call out my name  
In the night just to say that you love me baby  
It's all in the way that you touch and embrace me  
It makes me go crazy, I'm in love

My thoughts are replaced by your lovely face  
And the smile that you bring, I just can't erase  
The warmth of your love is like amazing grace

How sweet it is in your way

My thoughts are replaced by your lovely face  
And the smile that you bring, I just can't erase  
The warmth of your love is like amazing grace  
How sweet it is

It's you me, all about we love  
It's all in the way you me  
All about we love  
It's all in the way
