## **Dance Dance Dance**

## Earth, Wind & Fire

Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance

Let the fun begin
I'm so glad to see you
And I'm hoping that you feel the same

Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance

Just to dance with you is my only intention I don't even have to know your name

Come on and dance, dance, dance Come on and dance Come on and dance, dance, dance

I wanna let you know
I wanna dance with you
Just wanna let you know

I wanna dance with you, with you

Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance

The time is right to light up the night So come on Let's take it to the floor

Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance

I promise you that when we're through You know you wanna dance with me some more

Come on and dance, dance, dance Won't you dance, dance, dance Come on and dance, dance, dance

I wanna let you know
I wanna dance with you
Just wanna let you know
I wanna dance with you, with you
