## **Every Now and Then**

Earth, Wind & Fire

I think that the worst is through I'm almost over you I guess it was just a matter of time I've started going out How long can anybody go without Before you start goin' out of your mind Even so, I confess There are times when my heart rules over my head

Every now and then I find myself wondering about you baby Seems now and again I can't escape the thought of all that might have been Every now and then

Morning's the hardest time I wake up dreamin' 'bout you and I Some days I can't remember them all Evenings are painful still I can't help wondering if they always will be I can't help noticing this emptinessbaby I don't cry, every night Just the ones when I feel like I feel tonight

When I'm alone anytime I hear music play When I reach, reach for the phone Why does everything good Make me think of you baby

Every now and then I find myself wondering about you baby Seems now and again I can't escape the thought of all that might have been Every now and then
