

## Love Across The Wire

Earth, Wind & Fire

Girl, I wonder where you are  
So I close my eyes and dream about you, baby  
And I wonder do you feel  
Me a million miles away 'cause I've been needing

To send, love across the wire to the only one  
My heart is waiting for  
I send, love across the wire, tell her I'll be here  
Until she's in my loving arms, it won't be long

Just a few more weeks from home  
So I call you on the phone, to say, I love you  
Gonna send a card, a day  
All the time that I'm away, I miss you madly

I send, love across the wire to the only one  
My heart is waiting for  
I send, love across the wire, tell her I'll be here  
Until she's in my loving arms, it won't be long

Hey girl, gonna kiss and hold ya  
Love you, girl with all my might  
Nothing's gonna change, my love  
No one else can love you like I do

I send, love across the wire to the only one  
My heart is waiting for  
I send, love across the wire, tell her I'll be here  
Until she's in my loving arms

I send, love across the wire to the only one  
My heart is waiting for  
I send, love across the wire, tell her I'll be here  
Until she's in my loving arms
