

# Night of My Life

Earth, Wind & Fire

At the edge of creation  
I'm on the floor of eternity  
Leave it all behind me  
Know wich way I'm going  
All I know is flowing  
Mind intent on magic  
I know that you have it

It's bout to go on  
Peace is popping souls on  
Night's about to transform  
Born to bring this body to life  
And if you want some  
I'm about to bring up  
The love that's under us  
Make it flood  
Until it fills us with morning light

Night of my life  
Having feeling of a fire  
Burning with life  
Tasting divinity  
Night of my life  
I got plans to make this real right  
Starting tonight  
Night of my life  
Night of my life  
Night of my life

It's bout to go on  
Peace is popping souls on  
Night's about to transform  
Born to bring this body to life  
And if you want some  
I'm about to bring up  
The love that's under us  
Make it flood  
Until it fills us with morning light
