

Turn on (The Beat Box)

Earth, Wind & Fire

Have you been thinking nothing ever changes?
And you could be making a difference tonight
Why are you waiting, anticipating?
Can't fight the feeling, when you know it's right

Oh I just wanna see you smile
Forget about yesterday
Oh I, nothing can stop you now
So what are you waiting for?

Turn on, turn on the beat box
Baby, we're walking on the party line
Crank it up and let the music
Turn every night into a Saturday night

Whenever you're ready we'll be rocking steady
You're gonna get lucky leaving it all behind
Time's ticking away, it's a lot to celebrate
So it's time to play out on the party line

Oh I just wanna see you smile
Forget about yesterday
Oh I, nothing can stop you now
So what are you waiting for?

Turn on, turn on the beat box
Baby, we're walking on the party line
Crank it up and let the music
Turn every night into a Saturday night

It's alright, turn on the beat box
Baby, are you ready for the good time?
So come on, move with the feeling
Every night is a Saturday night

Turn on

Turn on, turn on the beat box
Baby, we're walking on the party line
Crank it up and let the music
Turn every night into a Saturday night

It's alright, turn on the beat box
Baby, are you ready for the good time?
So come on, move with the feeling
'Cause every night is a Saturday night

Beat box, beat box baby
Beat box, beat box baby
Beat box, beat box baby

Beat box, beat box baby
Beat box, beat box baby
Beat box, beat box baby
