

## Strangers in the Starlight

Eartha Kitt

We were strangers in the starlight  
Two hearts passing in the night  
Then you whispered "please don't leave me"  
And I whispered "hold me tight"

When I kissed you, how you thrilled me  
In a moment, love was born  
We were strangers in the starlight  
Now we're lovers in the dawn

We were strangers in the starlight  
Two hearts passing in the night  
Then you whispered "please don't leave me"  
And I whispered "hold me tight"

When I kissed you, how you thrilled me  
In a moment, love was born  
We were strangers in the starlight  
Now we're lovers in the dawn
