This is your brain on lies  
Oh, it light up in the MRI  
Oh, like a jar of fireflies  
Oh, look at the way you light up  
On lies  
In disguise

Oh, such impressive highly structured fiction  
Takes a lot of brain power to project these depictions  
I see you've kept your story straight after all this time  
Your cognition is highly activated  
Helps to believe what you've created

This is your brain on lies  
Introspective consciousness projecting a disguise  
This is your brain on lies  
The monitor is telling me the truth is localized  
Don't you get tired  
Don't you get tired
