

Infinity

Eartheater

If everything exists
Within infinity
Every possibility
Every fantasy
Even if it stays
Behind the eyes
Not manifesting
It's still a citizen of
A nation of
Imagination
Imaginationality
And I have no doubt
That I have occupied
The dreams of past and future eyes
Ages ago
And ages to come
Space is the place
Where we come from

What it is
What it is
What it is
What if what it is

What it is
What it is
What it is
What if what it is

What it is
What it is
What it is
What if what it is

What it is
What it is
What it is
What if what it is

What it is
What it is
What it is
What if what it is

What it is
What it is
What it is
What if what it is

Oh
Why
The fall ember from your eyes
Realize that Eve ran away
With the snake that night
La-da-dee-da
Kundalini
Eve, Eve, evolution

Every solution
Exists within
Infinity
Infinitely
Evolving
Atom, atom, atom
And evolution

The revving youth's antennae
Stretching through the ether
Know his fear
Have no fear
Rev-rev-revolution
Harness the yang
Of the Big Bang
Lingering yang
Lingering yang
Lingering yang
Lingering big bang
