I can't see  
Night time feels like a lifetime  
Oh my God  
Patiently waiting  
I think it's my first sunrise

This is real bliss  
This is a real kiss  
I've been waiting for you  
To come out of the darkness

Paitiently waiting  
I think it's my first sunrise

This is real bliss  
This is a real kiss  
I've been waiting for you  
To come out of the darkness  
This is real bliss  
This is a real kiss  
I've been waiting for you  
To come out of the darkness

Patiently waiting  
Patiently waiting  
Patiently waiting  
I think it's my first sunrise

This is real bliss  
This is a real kiss  
I've been waiting for you  
To come out of the darkness  
This is real bliss  
This is a real kiss  
I've been waiting for you  
To come out of the darkness
