You know that I'm the...  
You know, you

You know that I'm the kind  
Who would rather regret  
Something that I did do  
Rather than something I  
Something that I didn't do  
With you, with you

I'm about to gush, oh  
I'm about to take the dress off

You know that I'm the kind  
Who would rather regret  
Something that I did do  
Rather than something I  
Something that I didn't do  
With you, with you  
I don't wanna regret  
Something I didn't do  
With you

You opened my eyes  
Like vanilla sky  
It's been a long time  
Been a long time  
I woke up like Neo  
Set flame to the casino  
It's all a gamble now  
Dreamboat, let me drive  
Smash the bottle on you  
Sail into the new blue

You know that I'm the kind  
Who would rather regret  
Something that I did do  
Rather than something I  
Something that I didn't do  
With you, with you  
I don't wanna be brave  
Something that I didn't do  
With you
