

## Solid Liquid Gas

Earthater

Ice cold eyes  
Melting at the sight  
Of refracted light  
In the humidity  
Of my evaporating tear

Inhale me, heavy breathing  
On the windowpane  
I was rain but the sight of you  
Has me evaporating  
Lift me to the heavens  
I've been waiting  
Emotionally condensating  
I'm evaporating  
Into something weightless  
Don't make me wait  
Don't make me wait  
You make me weightless

Ice cold eyes  
Ice cold eyes  
Melting at the sight  
Of refracted light  
In the humidity  
Of my evaporating tear

Breathe me in  
Before I have to freeze this  
Breathe me in  
Before I have to resist  
I'm not gonna dismiss  
The bliss of this weightless state  
I don't wanna resist  
The bliss of this weightlessness

Inhale me, heavy breathing  
On the window pane  
I was rain, but the sight of you  
Has me, evaporating  
Lift me to the heavens  
I've been waiting  
Emotionally condensating  
I'm evaporating  
Into something weightless  
Don't make me wait  
Don't make me wait  
You make me weightless
