

Sugarcane Switch

Earthater

Broke her down
Sugarcane switch came
Down hard
Sugarcane switch came
Down hard

It's easier
With you
Spoonful of sugar
To swallow points of you
To help the medicine
Go down on me
And I'm illuminating

It's easier
With you
Spoonful of sugar
Helps the brutal view
Put the sun
To bed, he's tired
And I'm awake and inspired

It's easier
With you
Sugarcane switch
Became a flute
Blow into it
Inflate the sun
So that I can become

The moonlight
Belongs to me
While you sleep in your
Furious dreams
Fire below water
Makes the steam

Snatch the switch
It's now obsolete
We ground it down
Into something sweet
