

## Simba

## EARTHGANG

I done did a lot of fucked up shit on my time on the planet  
But I couldn't tell you what regret taste like, No!  
If you fuck with the Doctur, you already know "Hakuna Matata" t  
he only rule we follow, hoo  
We was ghosts for a minute, had to hit the west coast for a min  
ute  
Came back and the hoes were same but the culture was different,  
got me screaming at the glass cause I broke in the mirror like  
I am a lion, I am the king of defiance, hater quit trying  
I am protected by Zion  
You try to test, now I'm just testifying  
Looking at the judge like "Hold up your honor!"  
Pull out my palms, make promise to God, if I die I'm a goner (Y  
eah!)  
Worked up my ma, I'm a beam off but nah we like Yeezy and Donda  
(Yeah!)  
My guy do drugs, if I toss him a pound it's like feeding piranh  
as (Yeah!)  
Shout out to Ross, Spillage Village what we are  
A long wait, we can show you the sponsor!

I'm something special yeah, yeah, yeah, yeah woo!  
I'm something special yeah, yeah, yeah, yeah woo!  
I'm something special yeah, yeah, yeah, yeah woo!  
I'm something special yeah, yeah, yeah, yeah woo!

Ass on cell, long fax, dome factory  
But you know I ain't tripping on the trail around the world  
Popcode of my tail still after me  
Old slob on the attack from the faculties  
Wanna snatch these factor up out my jeans  
All psyched up, fried in the packaging  
I'm America's freaky little fantasy, I'm society's dirty obsess  
ion  
Cause my eyes seeing what the world can't  
And fireflies always seem to fuck into brighter days  
My tide bank. My loan's been keepin this wholesale  
Dem bricks bitchfold, fold for foes late  
Pythons flow through my veins  
Burn its stakes, light yo way!

Teacher called me a liar at a early age  
But motherfuck them, stuff them textbooks  
Just a little closer to the fire, let em feel the flame  
Man, I was running away. Shit I was turning the page  
I mean, look at what hate did  
Made me invincible. Turned me untouchable  
Boy, I'm so close to my maker

Born at the apex. I'm such a favorite. I'm such a caselet
