## **Right Here With You**

Oh girl You mean the world to me And, oh, girl I need you so desperately

You are my sunshine You shield the rain You make me happy I can't explain

Right here with you Is where I wanna be Oh, yeh yeh Right here with you That's where I need to be Oh yeh

Beautiful girl Don't make me cry again Beautiful girl Wanna be more than just your friend

You are my sunshine...

Right here with you...
