

Back to Me

Easton Corbin

Bet you've got that pedal on the floorboard
Windows down hair blowing in that four door
Looking out the windshield at something you ain't ever seen
I can see you there
Music up with a song you're singing to
Man I wish that road was bring you
Right here right now back straight back to me
Girl I'll be here

Once you've lived more life
Seen a little more world
Seen the other side of that small town girl
Once you've put a few miles between wherever you're at
And this dot on the map
You can always come back
Once you've seen it all
Come back to me

Got your post card post marked Tupelo
With all those places that you said you were gonna go
They all seem like they're a million miles away
Just like you use to say

Once you've lived more life
Seen a little more world
Seen the other side of that small town girl
Once you've put a few miles between wherever you're at
And this dot on the map
You can always come back
Once you've seen it all
Come back to me

I know things around here move a little slow
Ain't like that east or west coast
But I know you're gonna call
And tell me that you're on you're way
Yea you're on your way

Once you've lived more life
Seen a little more world
Seen the other side of that small town girl
Once you've put a few miles between wherever you're at
And this dot on the map
You can always come back
Once you've seen it all
Come back to me

Come back
