

# Old Lovers Don't Make Good Friends

Easton Corbin

I know we said that it was over  
You made me promise we would still be friends  
I know you wanted us to call each other  
And check in now and then  
But you keep callin bout you're mama  
And everytime you had a bad day  
I know I made a promise but I gotta be honest  
It don't work this way

I can't look at you baby and not see your pretty  
Dirt road my Chevy and not want you with me  
Girl we can both pretend but you know  
I'm gonna want you again  
Old lovers don't make good friends

Already know what's gonna happen  
If I happen to see you out  
We'll both fake it and just try to make it  
Look like we're nothin now  
But girl who are we kidding  
There ain't no way on earth  
To be in the same room and not wanna hold you  
Naw that ain't how it works

I can't look at you baby and not see your pretty  
Dirt road my Chevy and not want you with me  
Girl we can both pretend but you know  
I'm gonna want you again

I can't pour up a drink and not start to think  
About where you are, want you back in my arms  
Yea you and I know that road leads to a dead end  
Old lovers don't make good friends

I can't look at you baby and not see your pretty  
Dirt road my Chevy and not want you with me  
Girl we can both pretend but you know I'm gonna want you again

I can't hear your voice, I can't hear your name  
I wish that I could but girl I just can't  
Yea you and I know that road leads to a dead end  
Old lovers don't make good friends

Yeah, old lovers don't make good friends
