

This Feels A Lot Like Love

Easton Corbin

It's kinda like jumpin' out of a plane
Stompin' on the gas to outrun a train
A ten pound bass on a ten dollar Zebco reel
There ain't no question you're the one
When you come around, girl, here it comes
It's somethin' like nothin', I never thought I'd feel

This feels like somethin' I don't wanna miss
You know what I'm sayin' when I say this
Oh baby, this feels a lot like love
This feels like a gift sent from above
That writers write about, poets speak of
Oh baby, this feels a lot like love.

Usually when somebody gets this close
I wave goodbye and say adios
But you're makin' me wanna, wanna just hang around
Yeah, I wanna be here when the sun comes up
Share a first sip from your coffee cup
And share a last kiss after the sun goes down

This feels like somethin' I don't wanna miss
You know what I'm sayin' when I say this
Oh baby, this feels a lot like love
This feels like a gift sent from above
That writers write about, poets speak of
Oh baby, this feels a lot like love.

This feels like somethin' I don't wanna miss
You know what I'm sayin' when I say this
Oh baby, this feels a lot like love
This feels like a gift sent from above
That writers write about, poets speak of
Oh baby, this feels a lot like love.

Oh baby, this feels a lot like love
