

She's a rich girl, Persian rug and trust fund  
Barely standing but she's never had so much fun  
I just need a little bit of peace, take me far away  
I just need a little light relief

Hold up wait what did you say?  
Too busy lost in the bass  
I'm easily lost in this place  
I can feel it in my brain I'm coming up  
One too many in this place I've had enough, yeah

She said you don't really know me  
Said she's got the OG playlist straight from '03  
Keep it on the low, are you coming for afters  
Are you coming for afters

Who's got the house key  
All these girls at uni  
Like yeah my daddy's rich but no one understands me  
Are you coming for afters  
Are you coming for afters

Location services are rinsing all my battery  
Despite the read receipts you don't get back to me  
I just need a little bit of peace, take me far away  
I just need a little light relief

Nothing was the same when we woke up  
She don't wanna smoke up  
Conspiracy theories still chew my ear off on the sofa  
I've got to shoot soon, hope it's on my bus route  
Carpet stains and painkillers I'll be on the move

She said you don't really know me  
Said she's got the OG playlist straight from '03  
Keep it on the low, are you coming for afters  
Are you coming for afters

Who's got the house key  
All these girls from uni  
Like yeah my daddy's rich but no one understands me  
Are you coming for afters  
Are you coming for afters

She said you don't really know me  
Said she's got the OG playlist straight from '03  
Keep it on the low, are you coming for afters  
Are you coming for afters, yeah

Who's got the house key  
All these girls at uni  
Like yeah my daddy's rich but no one understands me  
Are you coming for afters  
I'll see you at afters

We're running low on this cheap wine  
You float across the room and beauty's redefined

Come draw me a silver line  
I will slip and see me slide  
The motion in your glide or the focus in your eyes babe

I find it hard to concentrate  
Let's take a minute take a break  
Let's get away  
I need a holiday, puff pass medicate  
Afters got me feeling like there's nothing else to say babe  
You taught me a lesson  
I was busy second guessing all your gestures, I was stressing  
But nah I'm cool now  
I'm calm now  
I'm good now
