

daydreams

easy life

Daydreaming and I'm thinking of you
Daydreaming and I'm thinking of you
Daydreaming and I'm thinking of you

Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
And all I ever see inside is you

Kaleidoscopin' vision
Maybe I should go and fix me some Berocca
'Cause I'm the real top draw
Going topper top, top, 'til I can't speak proper
So do me a favour, say it's over
So I can get busy getting sober
We used to get busy on my sofa
Now I sit on my own like

Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
You know, all I ever see inside is you

It's disappointing and anticlimactical
You read my messages but didn't get back at all
But that's the privilege of being beautiful
Dip below the surface like the springtime daffodils
And I've been sipping white lightning
And it's very, very frightening
You being in my daydreams is ever exciting
But what did I expect from you
Didn't anticipate what a beauty queen could do

Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
And all I ever see inside is you

Daydreaming and I'm thinking of you
Daydreaming and I'm thinking of you
Daydreaming and I'm thinking of you

Daydreaming and I'm thinking of you
Day drinking just for something to do
You know, I daydream until the late afternoon
And all I ever see inside is you

Daydreaming and I'm thinking of you

Daydreaming and I'm thinking of you
