

# slow motion

easy life

I feel time is moving too fast  
If we could slow it down sit back and relax  
Because if I don't take my foot off the gas  
I might miss it all  
Don't wanna miss it all

Still melancholy Mondays  
No Champagne receptions  
Despite your preconceptions  
I came out here with the best intentions  
But if you fail to mention when questioned  
Something which you later rely on in court  
They're laying down the law only my gran voted for  
From casual habits to weekend addicts  
Yeah we've heard the story before

So if you ever see me walk by  
I've been moving slowly  
You know why  
Yeah I'm in slow motion  
If you ever wonder why  
I drive slowly as I ride by  
I'm in slow motion

I feel time is moving too fast  
If we could slow it down sit back and relax  
Because if I don't take my foot off the gas  
I might miss it all  
Don't wanna miss it all

Spend dole money to get laid  
Instead of going to work just to get paid  
I'll eat dinner that my mothers made  
And do the shit that I do on my birthday  
Taste the hazy glaze  
And laze around blazing  
Windows down like a summers day  
With you

So if you ever see me walk by  
I've been moving slowly  
You know why  
Yeah I'm in slow motion

I feel time is moving too fast  
If we could slow it down sit back and relax  
Because if I don't take my foot off the gas  
I might miss it all  
Don't wanna miss it all  
I feel time is moving too fast  
If we could slow it down sit back and relax  
Because if I don't take my foot off the gas  
I might miss it all  
Don't wanna miss it all  
I feel time is moving too fast  
If we could slow it down sit back and relax  
Because if I don't take my foot off the gas

I might miss it all  
Don't wanna miss it all

(So if you see me when I walk by)  
(I've been moving slowly)  
(You know why)  
Don't wanna miss it all  
Don't wanna miss it all  
(If you ever wonder why)  
(I drive slowly as I ride by)  
Don't wanna miss it all  
Don't wanna miss it all
