Saddest Song

Easyworld

Won't you look out to that horizon The ships almost sailed away They all disappear like promises we'll all be so different Oh but there's a day behind the darkness

They're drawing the bigger pictures They're drawing the friendly fire They're drawing upon a lifetime of ugly experience Don't you leave me at the last time of asking

There's nothing serious Enough for this for this There's nothing serious Enough for this

It's easy to count your blessing
It's easy to soldier on
It's easy to make the best of the bad situation
It's easy for me to smile and say hold on

There's nothing serious Enough for this for this There's nothing serious Enough to lose tomorrow

I wish for a choir of angels I wish for a second chance I wish for an opportunity to have said something simple like do n't leave Or to catch you at the last time of asking

There's nothing serious Enough for this for this There is nothing serious Enough to lose tomorrow
