## When You Come Back I Won't Be Here

## Easyworld

Don't tell me love is worth the waiting
You kept me hanging all these years
But it's so good to feel this patience running out
When you come back I won't be here

So why are you holding onto misery?

Don't you see there's nothing left to fear

Cos if you're chewing something ugly, just spit it out

When you come back I won't be here

Dear leader I am but a nothingness
But you're good at looking all sincere
But you've been getting everything you want for long enough
When you come back I won't be here

There are no prizes here for tolerance We cannot all be insignificant And if they still don't understand I'll just spell it out When you come back I won't be here

Dear leader I am but nothingness
Whatever group you felt through here
If you by any chance you hear me, well listen up
When you come back I won't be here, no
When you come back I won't be here, no
When you come back I won't be here
