

## All I Know

EBK Jaaybo

This music shit is all I know, but it's crazy you don't recognize it  
Nightingale we them niggas that's promoting violence  
I'm bringing pain to their block, that's for James Gorman  
That's for Roy, I love you nigga, Imma see you soon  
Ain't going home, paranoid, I'm trappin' out this room  
PO acting sketchy I'm thinking she tryna pull the move  
I did some shit I pray my lil brothers never do

Aye

Will it kill you to be honest to me? That's the question that she always ask  
She give me all her love and I ain't give it back  
I can't tell you how I feel, go listen to my raps  
Banging blocks through the south, I'm on a murder mission  
I told my brother keep it stichin, just serve the sentence  
My lil brother seen some shit he don't deserve to witness  
They snatchin' all my brothers up I'm feeling that I'm next  
If they get me, stay with me baby nonetheless  
I fell in love with music  
Tryna trick me off the streets and I can't let them do it  
When you did that weird shit, I just kept it moving

Look

My mind with me but my heart stuck on 7th street  
Couple relationships that failed and I let them be  
How could you smile in my face then speak less of me  
You crossed me way too many times and now you dead to me  
I never pray to God but I might start today  
Casino died it took a nigga heart away  
That shit really my heart away  
Rip pops
