Aye
The system set lil brodie up for failure and he took the bait
Aye
Look, aye

The system set lil brodie up for failure and he took the bait
They labeled us as animals then threw us in a cage
A couple bitches did me wrong, that's why I'm built this way
You could've left behind my back, you did it to my face
Always give me all to everybody, that's my only weakness
God save me from these streets 'cause I been getting deeper
He's still alive but I lost bro
Cut him off, he wasn't trying to go, I been trying to score
I forgive you if you did me wrong
I gotta knock the brodie off and that shit hurt my soul, aye
Had to knock the brodie off and-
Let me show you how to shoot it
I don't like the way this nigga moving
Momma sad her baby boy a bad influence
I been on the block
Homies switching, fucking with the opps
And how you love me when you watch my heart rot?
Homies switching sides
You ain't slide when Kasino died
I still see the pain in his daughter's eyes
A life on the line
I don't think you'll take the sacrifice
These niggas really bitches in disguise
Aye, I pop perks and pop suckers cause it help me sleep
The murders fucking with my stomach so it's hard to eat
I'm trying to leave the streets alone and make my momma proud
But when you fall in love with guns, it's hard to put 'em down
Street nigga, give a fuck 'bout what them haters say
To see Kasino one time, it'd make my day, aye

To see Kasino one time that'd-that'd make my day
Street nigga, give a fuck 'bout what them haters say
