

Snake Mentality Pt. 3

EBK Jaaybo

This motherfucker goin' Skitz

Ayy

Jordi steppin' nigga, he steppin' nigga

Sentimental value went and got that back in blood
Standin' over you, over anybody I say I love
Lulu World, been feelin' lost since you been gone, I miss your touch
Been havin' crazy dreams, I wake up sweatin', reachin' for my gun
Keep Leebo with me he know I'm a killer
Gon' throw this all away for bro because I love my nigga
Make sure my twin lawyer was payed, don't want to see him sentenced
I'm tryna change, they wanna see me sinnin'
Ever been lost with no hope in the trenches?
Travel all the way across the world if you need my assistance
Got lost inside a broken system, missin' my lil' sisters
I love you, I can't fall out with my bro over these bitches
But them the same niggas that try to fuck your ho when you in prison, ain't it brazy nigga?
How they gon' bite the hand that fed 'em? Gales I made these niggas
Turned a couple niggas to killers, I done raised some niggas
Free Mad Maxx, me and bro done really spanked some niggas

Satanic visions on my mind, the opps killed a homie my demons activated
Smile in my face but I can see it in your eyes that you ain't glad I made it
They caught my bro, put him to rest 'cause he ain't have the Dracy
Searchin' for closure in my life, I ain't been happy lately
Know I done killed some, tried to repent for this shit but I just can't feel nothin'

Think about Nick and I shed tears for my lil' brother
Ain't EBK if you ain't killed a sucker
You supposed to slide but niggas ain't on nothin'
Snake Mentality might stab you in your back (Ay [?])
I was raised, they look at me and see a killer, my auntie just see a baby face
Parked the foreign in the hood at granny's house the address still ain't change
I mask it good so you wouldn't think I'm feeling pain
But through it all I'm gon' be there for you
You play me, I don't fuck with you like that but I still care for you
Leave the house in all black at night, my bitch text like "I'm scared for yo u"
RIP bro, I'm gon' put somethin' in the air for you
