

(Loss and gain, is the same)

I can't lose my sleep over you now
Just this last time, kiss goodbye, I'll look for a way out
Make a wish on D9
Pass my time, go slide on the green light
I don't play fast forward, I rewind
Press pause and I freeze time (And I throw out the peace sign)
Uh, I don't want all of this time
I'll speak to you, I throw my eye
Yeah, I swerve off all, I can't talk with ice in mine (I knew you were another guy)
All of this was a waste of time
Ever since I came into your life, I've been losing mine

I don't press stop, I don't rewind
Sad Money Mafia, and D9
Stockholm all nice, and I see signs
And I got stripes like Adidas
They wanna look like us and be us
Thaiboy goon, GTB
Buscemi for the stars only
Stars only
Buscemi for the stars only

Buscemi for the stars only
Buscemi for the stars
Buscemi for the stars only (Stars only)
You know me
Buscemi for the stars only
Stars only
Thaiboy goon, GTB
Buscemi for the stars only
(You already know, you already know)
Buscemi for the stars only
(If you love me then show me)
(Buscemi for the stars only)

I can't lose my sleep over you now, no
Just this last time, kiss goodbye, I'll look for a way out
Make a wish on D9
Pass my time, go slide on the green light
I don't play fast forward, I rewind
Press pause and I freeze time (And I throw out the peace sign)
Uh, I don't want all of this time
I'll speak to you, I throw my eye
Yeah, I swerve off all, I can't talk with ice in mine (I knew you were another guy)
All of this was a waste of time
Ever since I came into your life, I've been losing mine

O-oh, you're another guy
A-A-All of this was a waste of time
You don't wanna be the one, you're the only one
Someday I know I'll cross paths with you
You're the only one
You can see right through me

You're the only one
(You're the only one)
