

## Acid Rain

Ecco2k

Mix the 6, it's all water  
You're so sweet, I need salt  
This your drug, this your stain  
Speak your truth, it's okay  
Eat the night, through the veil  
Shield of flame, bless the rain  
In this world, watch me age  
Be the love, birthday cake

What would it take, to make it break  
Whatever that is, I can't save it  
Walk away, holy grace  
I like it better when he's naked  
What you say?  
I need a drain  
I wanna [?] you a secret  
I'll wipe the smile off of your face  
Fuck your birthday cake, happy drain day

Keep it silent in the circle  
You're the part of me that is so perfect  
Keep it silent in the circle  
You're the part of me that is so perfect  
Don't try tell me, is it worth it?  
Made the hotel to a place of worship

Every light I keep it on me burning  
I don't wanna see, close the curtain  
It's not even that early, but the sky's [?]

What would it take, to make it break  
Whatever that is, I can't save it  
Walk away, holy grace  
I like it better when it's naked  
What you say?  
I need a drain  
I wanna [?] you a secret  
I'll wipe the smile off of your face  
Fuck your birthday cake, happy drain day

Keep it silent in the circle  
Fuck your birthday cake, happy drain day
