

Think I fell for someone, oh, what's going on?  
I'm still covered in Dry g'LOSS and I can't take it off  
Oh, and it's just me and myself, just the two of us  
Spend some time alone with you now, you're my only one  
I've got a thing for you, a thing for you?  
I think of you, am I going crazy?  
A thing for you, a thing for you  
A thing (Don't take me back again, don't take me back again)

It's so hard to hide but so easy to find  
(Lost my shine, I star and cross my eyes)  
And my heart is blind, I star and cross my eyes  
(Lost my shine, I star and cross my eyes)  
Hydrogen peroxide, lime and ice  
(Lost my shine, I star and cross my eyes)  
Silver lights, I let it oxidize (Oxidize)

I've been rolling oxen bone  
Double K crystals kiss my nose  
Double K crystals kiss my nose  
Double K crystals kiss my nose  
Baby, kiss me through the phone  
Ecco2k, I lost all hope  
Smoking on dope, I feel so cold  
Smoking on dope, I feel so cold  
Live on islands made of stone  
Rob that nigga for his coat  
Twenty-five thousand on Silk Road  
Shine, shine, shine, shine, shine, that glow  
Obviously silver, not no gold  
Tried to keep up and he went broke  
Steaming hot, they don't want no smoke  
2g K, went to the hole

And my heart is fine, I star and cross my eyes  
Can never let you cross my mind  
Oh, I try, it happens all the time (I'm not afraid of anything)  
And my heart is blind, I star and cross my eyes  
Can never let you cross my mind  
Oh, I try, it happens all the time

Oh, I'm unraveling, and I'm panicking  
Feel like I'm paper-thin, and now I'm tearing  
Help me please, give me calcium, I think I'm fracturing  
I need bandaging, don't take me back again  
I feel like Marilyn, but I'm not acting again  
This might be the end, I think it might be  
I'm seeing evil men, am I imagining them?  
I think I might be

Like I'm being pulled from below and from above (True friend)  
In every direction, at once
