

Cinderella

Ecco2k

She like me but she think that I'm a weirdo
Me and Nino, smoking out the kilo
I'm a fiend bro, I'm calling for a black crow
I lost my backbone, I wanna get it back though
A lotta black smoke, falling from the Lambo
On the West Coast, it's just me and Ecco
You're holding on to a shadow, gotta let go
Head shot, me, I'm swallowed by a black hole
Trash star king, smoke and dirty mirrors
Storms coming, I feel it in my fingers
Puppet king, they dance, Cinderella
Your glass shoe don't fit, we gon' steal 'em
Who comes out at night, it's a riddle
This not a Oxy, it's a skittle
Drain Gang boys, creeping in the gutter
This is not LSD, it's a puzzle
These are not diamonds, frozen water
Hope you hate my shit cause you're garbage
I am home alone in my castle
Life was aight, I wanna know what's after

Blood on blood
I'll bring your end
Love your love
Blood on blood, blood on blood
I'll bring your end

All I wanna see is 1080 G's
I'm GTB till I R.I.P
I gotta leave for a couple weeks
Day 3, losing beauty sleep
I will get it for you, whatever you need
Crushing ecstasy in between my teeth
It's not speed, need a set of keys
I am D&G, drinking antifreeze
And my feet don't touch the streets
It's not that deep, I don't talk to creeps
Feel like 16, but I'm not that sweet
She had a crush on me, may she rest in peace

Ugh I got the leaks
It's not that deep, I don't talk to creeps
Feel like 16, but I'm not that sweet
She had a crush on me, may she rest in peace
