

guardianAngels((NO2))

Ecco2k

Dark alley, black Audi
Algae, sink 'em to the bottom of the black sea
Blackout, backseat of a black taxi
Black jeans from Acne, matched with a black T
Blood on the pavement, shadow assailant
Don't make a sound, take 'em down with my hatred
Bit-money payments, talk to my agent
Prada sport mist, lost myself in the fragrance
I know about the past but I don't know how to act
Once I lost my innocence, I could never get it back
Black light, out at night, Kawasaki mountain bike
Guardian angels watch over me like satellites
Satellites watch over me like guardian angels
Cover my body with designer labels
Air hockey table, flight mode enabled
New response trails, put them over the cables
