

# Happily Ever After

Ecco2k

Anything goes (Goes), I can't say no (No)  
Hands on your throat (Throat), I can't let go (No)  
She'll get three coats (Coats), she'll get free coke (Coke)  
Headshot, no scope (Scope)  
Go up in smoke (Smoke)  
Should I know you? Sorry if I broke you (Broke you)  
You look like you seen a ghost  
You look broken and alone  
I wish I could make you whole (Broken)  
Hoping I won't make it home  
Bring me close or let me go  
Can I trust you? I don't know

Happily ever after  
Uh, I don't know what happened  
Battery pack taste like acid  
Panicked, hangin' out with addicts  
No cash, pay plastic  
Play you like a actress  
MasterCard, I drag it  
Face mask, candy wrapper  
Uh, I don't know what happened  
Battery pack taste like acid  
Uh, vanish, turn it into ashes

On candy paint (Faded away)  
Stay awake for days, forever I wait  
I lay awake, gonna stay up late  
Still walking on nails  
I met you somewhere, I forgot your name  
Smell like Holygrace, taste like acid rain  
Look like toxic waste, I still need to be saved  
All my friends are Drain, need to fix my face  
All my friends are snakes

Happily ever after  
Uh, I don't know what happened  
Battery pack taste like acid  
Panicked, hangin' out with addicts  
No cash, pay plastic  
Play you like a actress  
MasterCard, I drag it  
Face mask, candy wrapper  
Uh, I don't know what happened  
Battery pack taste like acid  
Vanish, turn it into ashes
