

Numb/Beverly Hills

Ecco2k

Bring me to you and bring me down with you
And make me forget you
I've been going crazy since I met you
I don't wanna upset you
Pull up in a Lexus with my besties, rolling off the ecstasy
If you wanna link up, let's connect it, or you wanna dead it
Gotta get it even if it's heavy, so I'm getting ready
Gotta get it even if it's Fendi, yeah, I get it for you
Shadow of a shadow come to get me, so I'm getting ready
When I'm in the city, tinted windows, riding in a rental

Miss you, yeah, I'm hearing voices
Far away, I'll await you
Nowadays I'm numb without you
Come my way, I'll die for you
Midnight come, I change without you
Far away, still close to you
Nowadays I'm sick without you
In the night I go for you
Nowadays I'm numb without you
Far away, still close to you
Miss you, yeah, I'm sick without you
Come my way, I'll die for you
I'm numb without you, I'll die for you
