

## Suffocation

Ecco2k

Rhinestone on my Ralph Lauren, 10 pills and I'm stillborn  
And I'm drinking Napalm, acid burn my face off  
I live in your blind spot, Drain Gang King, the night spawn  
No one, that's the right one, I black out, my brains gone

Had a bad dream then I woke up in Hell  
At the hotel rolling like a windmill  
In a Range Rover, can't see through the windshield  
This bitch head's fucked up, she need an Advil  
My whole team fucked up and we got no chill  
Cut you off so quick, we told him hold still  
Since we fell out heard it's going downhill  
Drain Gang CEO, this shit is unreal  
You shouldn't talk to me baby cause I'm two faced  
I roll up 10 grams then I get some toothpaste  
I left some demons here, I need a new place  
I fuck a check up, get it back in two days  
Fuck a check up, get it back in two days  
I can't get set up cause I'm in the blue rain  
Can't get set up cause I'm in the blue rain  
Trash Star King, falling cause I'm too vain

Suffocation, plastic bag over my head  
New destination, I'll be a dream, I'll be a dream  
Punch your face in, make your face pretty again  
Why are you waiting, in your dream, I'm in your dreams

Suffocation, plastic bag over my head  
New destination, I'll be a dream, I'll be a dream  
Punch your face in, make your face pretty again  
Why are you waiting, in your dream, I'm in your dreams
