

## Just A Touch Away

Echo & the Bunnymen

You said you could make it disappear  
Make my pathway clean and clear  
You said I was just a touch away

But I'm not even close, no, nowhere near  
You said you could make it disappear  
Make my pathway clean and my pathway clear

How'd you want to go? Should we go together?  
I don't want to go, gonna live forever, live forever

Shadows in the fog are moving in  
From the world outside to my world within  
I'm sucking on the dust that moves the air

The pieces move but I'm still there  
Shadows in the fog are moving in  
From the world outside to my world within

How'd you wanna go? Calm or stormy weather  
If we've got to go, let's go together, together

You said you could make it disappear  
Make my pathway clean and clear  
You said I was just a touch away

But I'm not even close, no, I'm nowhere near  
You said you could make it disappear  
Make my pathway clean and my pathway clear

How'd you want to go? Should we go together?  
I don't want to go, gonna live forever, live forever  
Live forever, live forever, live forever

La, la, la, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la, la, la
